Student Selection	<ul style="list-style-type: none"> • Describe your two-step process for selecting Title I students: <ol style="list-style-type: none"> 1) How is the pool of educationally disadvantaged students identified? 2) How will you select the neediest students? • In a narrative, describe how you will include migratory and homeless students in your selection process regardless of the date that the student enters your school. Supplemental Support</p>	<ul style="list-style-type: none"> • Describe how your Title I instructional program is in addition to the core competency instruction. • We need to know from your description that the Title I program services are supplemental to what the child is required to receive by law. In order to be in compliance with the law, your program must be able to identify how the services provided by the Title I staff to Title I students are in addition to what every other child receives as part of his/her basic education. 	<p>Paraprofessional support for reading and mathematics will be provided by Para II certified staff. Title I students who meet eligibility criteria will receive additional support in these content areas of study.</p>

Ongoing professional development in differentiated instructional strategies ensures that student needs are being addressed by the classroom teacher and the Title I instructor. 3. All students will receive direct instruction from their classroom teacher and supplemental services from Title I staff. 4. Title I Schedule is determined through working closely with classroom teacher. There is delineated time for direct instruction and delineated time for extended Title I support.

Progress monitoring reports for Title I students are sent home along with classroom report cards. The district will provide parents with a Title I Survey to review the effectiveness of the parent involvement policy, parent activities and the Title I program as a whole, along with determining subject requests for parent professional development meetings. The results will be used to help craft and formulate the grant for the current and following year, and also inform parent training opportunities. Parent nights will be held throughout the school year by professionals to provide strategies to increase student achievement in literacy and mathematics, taking into account subjects requested by parents in survey.
