<b>June 21-30</b>	Summer Remediation--8 days/8:00 am to 12:00 pm

## Assessment Guidelines:

1. All classes will meet for one, 90-minute period during the assessment week. Teachers may use the period for either assessment or instruction (or some combination of both).
2. Students must attend the scheduled period(s) for each of their classes. Administrative permission is required to change an assessment time, including make-up. Juniors who met SAT benchmarks may be exempted from the final assessment period in math and/or American Humanities with permission of the teacher.
3. Strategies for Success, GOALS, and ESOL sections will meet as usual.
4. No managed time during the assessment days, but students may work in designated areas including the cafeteria, library, and Academic Support Center.
5. Normal school attendance policies and procedures apply. Students who are absent from school may not participate in co-curricular activities or athletics on that day.
6. Teachers will work with students during the make-up/remediation periods. Students may also go to the library, Academic Support Center, or another designated space for work time and academic support.
7. Math support will be available in the ASC during the assessment week. Students may continue to work with GOALS, Strategies, and/or Math Support teachers through the remediation and grading periods.
8. School Counselors will be available for support and 2023-2024 planning.
9. Bus service will be provided on the normal morning schedule and after the second assessment period each day (11:15). A late bus will also run at 1:00 after the remediation periods on Monday, Tuesday, Wednesday, Thursday, and Friday.
10. Limited cafeteria service will be available on the assessment days through pre-orders.
